

## OUR MISSION

To witness to God's love, known in Jesus Christ, by providing quality, whole-person health care to all, especially the poor.

# Healing and Hope

East Liberty Family Health Care Center  
Annual Report 2010-11

# A Message from Our Executive Director

**In May, 2011, our Board of Directors concluded a nationwide search by naming Dr. Eileen Boyle as our Executive Director. Dr. Boyle had served us for 25 years as Primary Care Physician (1986 to present); Clinical Manager (1998-2004); and Associate Medical Director (2005-2010).**

*This annual report was funded by a gracious gift from an anonymous donor.*

*East Liberty Family Health Care Center is a unique place.* We offer whole-person health care focused on the dignity and worth of all people, especially the poor. We believe that each of us is made in the image of God. We place great value on our patients, our employees, our board of directors, our volunteers and our partnerships. Each of us is critical to our mission, which is:

**To witness to God's love, known in Jesus Christ,  
by providing quality, whole-person health care to all,  
especially the poor.**

Since 1982, we have served the uninsured, the underinsured and the medically underserved in the East End of Pittsburgh. As we present this annual report of accomplishments, we do so with a humble spirit. We know that our work has been built on a foundation of prayer as well as clinical and fiscal responsibility. From our opening day until now, we have offered to pray with every patient at the end of the visit. We served 7,616 unduplicated patients last year in 31,959 visits. That's a huge amount of praying. And serving. And loving. And breaking down barriers that otherwise would have kept many of our patients from receiving care.

Teamwork. Focusing on the whole person. Respect. Accountability. Patient-centered. Outstanding leadership. Quality improvement. These have been the hallmarks of our work. We have been successful in our service. For us, that word "success" means that we have been faithful to God.

We are grateful to be a Federally Qualified Health Center (FQHC) and appreciate the standards that are required with that designation. Every day, we deliver high quality, community-tailored, affordable, comprehensive primary and preventive care to underserved people. We are challenged with financial pressures, knowing that some of our services are "mission critical" but are not reimbursable. Still, we serve, trusting that God will provide resources through individuals, corporations, foundations, churches, government and other entities.

To all our stakeholders and friends, we say thank you. We are grateful for the many ways in which you support us as we bring healing and hope to our patients. We have faced cutbacks in funding and a very challenging economy. But we know that our work is important. With God's help and yours, we will continue to live out our vision and our mission with gratitude.

Sincerely yours,

A handwritten signature in blue ink that reads "Eileen M. Boyle MD". The signature is written in a cursive, flowing style.

Dr. Eileen Boyle  
Executive Director

# We Affirm Our Core Values

## ◆ Christ-centeredness

We believe in and are committed to Jesus Christ in all we do. We are dedicated to caring for others in the manner He cares for us, partnering with the Body of Christ.

## ◆ Prayer

We access God's presence through prayer and worship, celebrating our limitations and His greatness, sharing our thanks and our needs, and seeking His help and direction.

## ◆ Responsibility

We take responsibility for the gifts we have been given and the ministry in which we serve, seeking to efficiently use resources entrusted to us while always searching for new ways to improve.

## ◆ Family

We are a community in service together, united as members of God's family; respecting, sharing with, and offering support to one another.

## ◆ Service

We are called to compassionately serve others by providing whole-person health care, which includes listening to needs and responding with the necessary medical, emotional, and spiritual support.

## ◆ Wholeness

We acknowledge our limitations, place a priority on personal growth, and seek a sustainable balance in our lives.

# Our Services

East Liberty Family Health Care Center offers:

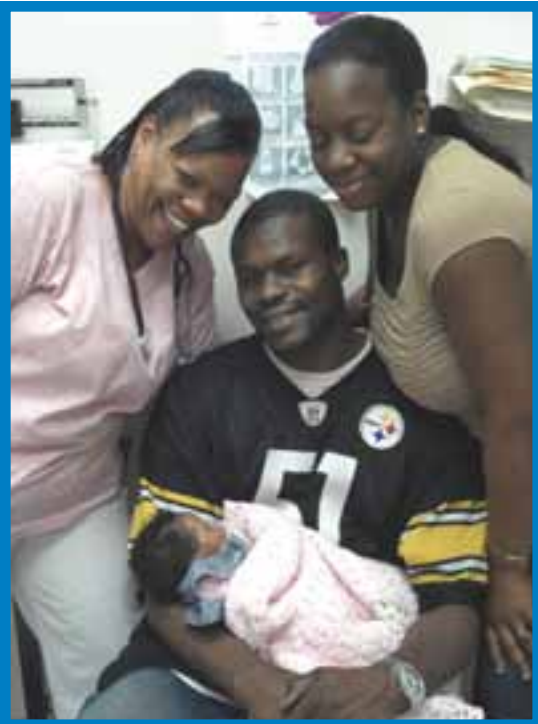

- ◆ **Whole-person primary care** for physical, emotional, and spiritual well-being
- ◆ **Adult and Pediatric** primary care
- ◆ **Asthma, diabetes, blood pressure** control programs
- ◆ **Dental Care** (*adults and children*)
- ◆ **Doula Services** (*including birth support and prenatal/postpartum visiting*)
- ◆ **Drug and Alcohol outreach** and relapse prevention program
- ◆ **Hearing/Vision** screening
- ◆ **HIV/AIDS** prevention/testing and peer support services
- ◆ **Homebound elderly outreach**
- ◆ **Homeless outreach** and medical clinic in homeless drop-in center

"We have two dentists who see patients from the very young to the very old. We also provide education and prevention services, which are not reimbursable but are critical."

Dr. Suzanne Maslo, DMD

- ◆ **Immunizations/Well-child care**
- ◆ **Lab Services**
- ◆ **Obstetric/Gynecology** services and prenatal outreach services
- ◆ **On-call physician services** 24 hours/day
- ◆ **Parent/patient/family education**
- ◆ **Pediatric home visits** to families in crisis
- ◆ **Podiatry**
- ◆ **Psychology and Counseling** services (*individual/family*)
- ◆ **Pastoral Care**
- ◆ **Benefit Eligibility Counseling**
- ◆ **Spiritual support**

# Enabling Services

## Our Safety Net of Services

As a Federally Qualified Health Center (FQHC), we are an integral part of the health care safety net for the East End of Pittsburgh, providing comprehensive primary health and supportive services without regard to ability to pay. Our enabling services include pediatric outreach, homebound elderly outreach, specialized drug/alcohol/ HIV support services, health education/prevention services, translation, transportation and much more.

*Most of these are non-reimbursable services. No entity will allow us to bill for these services, but our Board of Directors has determined that we must provide them. We label them "mission critical". As we serve very vulnerable people, we must step out in faith and deliver these enabling services, trusting that God will provide the resources. Together, we are breaking down the barriers that help our vulnerable patients have better access to care.*

## Pediatric Outreach

Our Pediatric Outreach Coordinator serves 200 families, with more than 600 children. She visits young mothers in their homes to educate, encourage, support and help them manage the health and psycho-social needs of their infants and children.

Together, we identify barriers to good health care for the children, especially problems associated with mental illness, substance abuse, housing, abusive relationships and child truancy. The program helps young moms raise healthy children. Ninety-eight percent (98%) of the families we serve are African-American. Eighty-eight percent (88%) have incomes below the poverty level and 98% are families headed by single parents.

## Homebound Elderly Outreach

Many of our patients are frail, elderly and alone. They need our help to continue to safely remain in their own homes. We stay with our homebound patients as long as they're alive, keeping them independent and out of the hospital, often assisting them to age in their own homes with dignity and peace, for as long as they wish or until the end of their lives. When needed, staff transports these frail patients to a nearby clinical site of East Liberty Family Health Care Center or to other specialists for necessary care or tests. We deliver medicines and other health-related supplies to the patients and help patients and their caregivers connect with Medicare Part B, the waiver program, the Department of Aging, and other government and private programs and services. Last year, we provided 2,679 visits to 106 individuals. An average of just 2.1 visits per patient/month helped to prevent 50 emergency room visits or hospitalizations.

## Drug/Alcohol/HIV Outreach

The Center's peer specialists offer addiction recovery support of addicts in and out of recovery all along their journey. We make referrals and provide transportation to detoxification, treatment, or counseling. We help people to continue their sobriety through participation in 12-Step meetings; group support; case management; and provide preventive community education about the risks of drug usage and unsafe sex practices. We go to local homeless shelters, soup kitchens, and drop-in centers to form relationships with the homeless, and when trust develops, invite them into care at our offices.

We send community workers to the streets of East Liberty every day, helping the addicted find recovery, treatment, community, and hope.

Through this outreach, we have developed strong relationships with hundreds of addicts, some of whom are living with HIV/AIDS.

**East Liberty Family Health Care offers healing and hope to our patients and our neighborhoods.**

*For I know the plans I have for you, declares the LORD, plans to prosper you and not to harm you, plans to give you hope and a future.*

**Jeremiah 29:11**

# Annual Statistics

From the Uniform Data System (UDS) Report to the U.S. Health Resources and Services Administration for the period January to December 2010.

The East Liberty Family Health Care Center is a Federally Qualified Health Center (FQHC) and receives support through the Health Resources and Services Administration of the Department of Health and Human Services (HRSA). The Uniform Data System tracks comprehensive information, including patient demographics, to improve health center performance and operations, and report overall program accomplishments.

## In 2010, the Center served...

### Patients

Total Patients.....	7,616
Number of Patients Who Used

**“Foundations make independent, innovative investments in helping us carry out our mission. They are vital partners in helping to bring healing and hope to our patients.”**

**Kristen Wilson  
Development Committee  
Board of Directors**

## Support from Foundations and Community Groups

*East Liberty Family Health Care Center is very grateful for the gifts that have been given in fiscal year 2010-2011 from foundations and community groups. These have included:*

Anonymous  
Dupee Family Foundation  
FISA Foundation  
Forbes Funds  
Grable Foundation  
Jewish Health Care Foundation  
Ladies Hospital Aid Society  
Massey Charitable Trust  
Richard King Mellon Foundation  
Nimick-Forbesway Foundation  
Panagulias Family Foundation  
Parker Foundation

The Pittsburgh Foundation  
Podiatry Foundation  
Portiuncula Foundation  
Shadyside Hospital Foundation  
Irene Shea Foundation  
Staunton Farm Foundation  
Urban Affairs Foundation of the  
Jewish Federation of Greater Pittsburgh  
Thomas J. and Sandra L. Usher  
Charitable Foundation  
Wrenn Dietzel Charitable Foundation

## Capital Improvements

East Liberty Family Health Care Center was the recipient of a \$540,000 Capital Improvement Program (CIP) grant from the U.S. Department of Health and Human Services as part of the American Recovery and Reinvestment ACT (ARRA).

We used the funding to build an annex to our East Liberty office. This annex has added 510 square feet of much needed space for an additional exam and two counseling rooms. We also:

- ◆ Made renovations to the Lincoln- Lemington office to add two exam rooms and a nurse visit room and to relocate our server room.
- ◆ Refurbished the Dental offices at Hosanna House. We expanded to this site into offices that had been vacant for several years.
- ◆ Purchased a new phone system,
- ◆ Added Dentrax, an electronic dental record system, and digital radiography for both dental sites.

**Our new annex at our East Liberty site is an attractive, much-needed temporary addition. The annex during and after the construction.**

**“Churches see how we integrate Christian faith into every aspect of our care. By helping us, the churches are directly participating in ministry as our partner. Together we demonstrate our caring, especially for those who are vulnerable.”**

**Rev. Paul Roberts  
 Co-Chair, Board of Directors**

# Our Finances

The East Liberty Family Health Care Center provides 32,000 encounters of whole-person health care each year at the 2010-2011 annual cost of \$6,192,936.

Of that amount, our direct care costs for program services were \$5,126,967.  
General administration: \$880,911.  
Fund-raising: \$185,058.

Many valuable partners work together to fund this vital ministry:

## **PATIENT SERVICES REVENUE (\$ 2,887,354 or 47% of total revenue):**

When possible, our patients participate in paying for their care. We maximize reimbursements from insurers and assure that our patients are enrolled in every entitlement program for which they are qualified. Earned revenue from patients is our largest source of revenue.

Each year, we provide \$2 million in “charity care and other uncompensated care.” To support this effort, we need to have additional funding to cover patient care.

## **This comes from:**

**FEDERAL GOVERNMENT (\$1,328,634 or 21%).** The Center utilizes federal funding to enable it to serve the uninsured/underinsured at the significant level that we do. We are a Federally Qualified Health Center (FQHC) and receive an annual grant from the Health Resources and Services Administration (HRSA) to provide primary healthcare to underserved, underinsured and uninsured people. This valuable, renewable source of funding requires high levels of service and accountability. We are proud of the clinical outcomes and measures of financial stewardship that our federal funding requires of us. We are grateful that our federal government recognizes the importance of funding community-based groups to care for the most vulnerable in our midst.

**FOUNDATIONS (\$865,690 or 14%).** Philanthropic and corporate foundations are strong partners with us, supporting new projects, safety net enabling services and capital needs. Their gifts allow us to provide many of our “mission critical” services that help to break down the barriers that keep our neighbors from accessing our services.

**HEALTH-RELATED CORPORATIONS (\$412,039 or 7%).** Many health-related companies support our mission of providing quality healthcare for all people without regard of ability to pay because they recognize the important role we play in the region’s healthcare Safety Net.

**Each year,  
we provide  
\$2 million in  
“charity care  
and other  
uncompensated  
care.”**

**Sobol Veltum & Associates** conducts an annual audit of East Liberty Family Health Care Center. The figures cited above are from their audited statements of July 1, 2010 through June 30, 2011. The complete audit is available for review by contacting Nancy Lee Cochran, development consultant, at 412-345-7854.

**CHURCHES AND INDIVIDUALS (\$315,887 or 5%).** We depend on local churches and individuals to be a strong foundation of financial and spiritual support. These donors trust that we are good stewards of our resources. They know that we keep Jesus Christ at the center of our activities and that their gifts are used to give quality, whole person, compassionate, loving care.

**INVESTMENT INCOME\* (\$300,682 or 5%).** Investment income is comprised of the Patient Care Endowment Fund, Ochiltree Endowment Fund and Jackson Home Care Fund.

**LOCAL AND STATE GOVERNMENT FUNDING (\$90, 259 or 1%).** Government entities help us serve our vulnerable brothers and sisters by supporting several of our critical Safety Net services.

**UNITED WAY (\$17,849 or less than 1%).** Individual donors contribute to the Center through the United Way Contributor Choice Program. **Our Agency Number in Allegheny County is 338.**

\*East Liberty Family Health Care Center has permanently restricted net assets, which consisted of the following on June 30, 2011:

Patient Care Endowment Fund .....	\$1,493,369
Ochiltree Endowment Fund .....	187,364
Jackson Home Care Fund .....	47,776
 Total Endowment .....	 \$1,728,509

# Hope Needs Help

East Liberty Family Health Care Center is dependent upon financial support to carry out its mission. If you, your family, neighbors, church, company, philanthropic foundation or other friends want to learn more or wish to support us, please contact us:

**"God led me to pray with Dr. David Hall more than 30 years ago about the need and potential for a Christian health care center. I was grateful then and am even more so today as I see the awesome work that is done here every day in God's name. Can you believe it? We are now celebrating 29 years of whole-person care! It's amazing."**

**Dr. Douglas Dunderdale  
Co-Chair**

**"Being involved with the Center is one of the greatest joys of my life. My children and I are patients and have received excellent, loving care. Now, I can give back by serving on the board. This is wonderful."**

**Georgette Powell  
Board Member**

## Board of Directors and Officers

As a Federally Qualified Health Center (FQHC), we are required to have a consumer-controlled Board of Directors. A minimum of 51 percent of our board must be patients of the Center. This mandate has brought to us visionary leadership, compassion, better understanding of the needs of all stakeholders, and a passionate commitment to excellence. We are grateful to the volunteers who so willingly serve on our board.
